

GROWTH

Acquired 90% stake in VEM (Thailand) Co., Ltd. to strengthen the strategy by growing the healthcare packaging & supplies business, enhancing the production capabilities and extending the product lines of Deltalab and Bicappa to ASEAN.

Acquired additional 44.48% share in PT Fajar Surya Wisesa Tbk., to be the foundation for long-term growth of SCGP's integrated packaging business. This could enhance production efficiency and expand consumer-linked portion in the fast-growing Indonesian market.

INNOVATION

Fest Redi Pak has received the "Best Socially Beneficial Innovation" Award at the "7 Innovation Awards 2024" organized by CP All Public Company Limited. This shows Fest's commitment, in collaboration with Reo's Deli, and serves a significant motivation to advance on sustainability and innovation for society.

Vexcel has received the international certification from the Association of Plastic Recyclers (APR) for the innovative barrier PP multi-layer polypropylene packaging, that aligns with environmental trends by increasing the use of recycled plastics and reducing the use of new plastics.

ESG

Organized a seminar titled "Sustainable Synergy for Decarbonization" for collaboration among producers, entrepreneurs, SMEs, and financial institutions in the packaging industry's value chain. The aim was to exchange perspectives on challenges and best practices in reducing greenhouse gas emissions and fostering a sustainable environment.

SCGP has **achieved Carbon Footprint of Products Certification, for all paper packaging SKUs and packaging producing processes** from The Thailand Greenhouse Gas Management Organization (TGO). We are ready to team up with customers to minimize greenhouse gas emissions and promote sustainability, totaling 145 products and 16 processes. (Information as of 18 Sep 2024).
